DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house, located on the west side of Vermont Street is a one and a half story, five bay log structure. At the front elevation, it is covered with aluminum siding. At other elevations there is plain lapped wood siding. A large five bay shed roofed wall dormer was added, substantially enlarging the house. First story windows have two over two pane sashes, probably not original, while those at the second story level have single pane sashes. The main entrance is located in the central bay and there is a modern gable roofed porch over it and the two flanking bays. A two story wing extends to the rear. The house is in good condition and probably dates from the early 19th century.
